AGROFOOD PLASTPACK ETHIOPIA HOSTS FRENCH TECHNOLOGY

From February 3rd to 5th 2017, Addis Ababa will host the 1st edition of the Agrofood Plastpack Exhibition.

Among the fifty exhibitors, we are delighted to announce that 9 French agribusiness companies will be exhibiting under the FRANCE PAVILION.

The **French Pavilion** is organized by **Adepta**, a network of 240 companies, French manufacturers and suppliers of equipment, technologies and inputs for agriculture, livestock and agrifood production. Through its members, Adepta is a unique showcase of **French technology and know-how** in these sectors. Adepta creates link between the expertise of its members and Ethiopian entrepreneurs needs.

Today, Ethiopia is East Africa's 2nd largest importer of agricultural machinery and equipment and 2nd largest importer plastics and packaging machinery. France has renowned expertise in agriculture and food industry, therefore, **Agrofood Plastpack Ethiopia 2017** is an excellent opportunity to meet French leading manufacturers of machinery for agribusiness. The French Pavilion represents the best know-how, services and latest technologies for the production and packaging of food and beverage.

These 9 exhibitors, members of Adepta, represent a wide range of agribusiness's sectors, from livestock to packaging, including processing. They will meet the expectations of professionals looking for solutions for **agriculture (irrigation and spraying), poultry farming, dairy industry, wine processing and packaging**. Together they offer **complete solutions for each production stages**.

As members of Adepta, these 9 companies are used to working together, building **custom-made solutions** and managing projects from upstream to downstream. These highly specialized companies can participate into adding value to the Ethiopian agri sector.

Beyond the French presence during the trade show, Mrs. Aude ROELLY, as Sub-Saharan Africa Area Manager at Adepta, will help you access the latest technology of Adepta's network, organized in 8 sectors: **Livestock production, Dairy Industry, Meat Industry, Field crops, Fruits & vegetables, Bakery, Packaging and Vitiviniculture**.
